Rescued a kitten out of a 8-10 foot deep crawlspace that it had fallen into. We attached yarn to 4 corners of a mesh netting bag and then had a rope attached to the 4 lengths of yarn. Placed kitten food in an attempt to help attract the trapped kitten. The mother of the kitten eventually brought 3 more kittens out of the crawl space. All the cats associated with this video have been fixed. For more crazy cat

I heard a rattling fence and desperate meows. This is what I found. My arrival scared off a herd of rabbits that was standing around gawking. The cat likely got stuck while chasing the rabbits. Karma. What goes around comes around.
