**I**t's a well known fact that the totality of corporate journos and entertainers, under penalty of career cancellation, obediently toe the imperialist line, that's why unless you watch or read alternative media sources (like this one) you are liable to be consuming nothing but the smelly servings of the Ministry of Truth. That's the case therefore with all major comedians approved by the empire, a select group of extremely well paid people which includes Steven Colbert, Bill Maher, John Oliver, and others of equivalent caliber. Well guess, what, folks, it now seems that John Oliver apparently had something like a conversion—at last—or the Israeli/Palestinian issue is so obvious a crime that he simply had enough. Oliver is obviously aware that his segment would

detonate an explosion of Hasbara retaliation, and this already has begun. It's clear the pressure, as usual, is on to make him a non-person, to cancel him, and to make an example, too, lest others begin to think they can cross the invisible but very real imperial red lines with impunity. Oliver's presentation, by the way, given his usual passion and talent to inject clarity into neglected or distorted issues, was good, but far from splendid. He is either still learning or he was pulling many of the punches that the gravity of Israel's crimes actually merit.

---

Maybe Oliver found the strength of his convictions in the fact that, quite belatedly, decades and thousands of victims too late, HRW –led by a Jew, and supported heavily by US Jews and George Soros, finally found its voice (for reasons that may have to do with replenishing its near depleted credibility) to denounce the Zionist entity for what it is, a criminal project with no possible moral justification, a posture, incidentally, supported in its entirety by Israel's own top human rights organisation, B'Tselem. Its director put it quite clearly and succinctly:

---

*The systematic promotion of the supremacy of one group of people over another is deeply immoral and must end.*—Hagai El-Ad, executive director of B'Tselem

The Hasbara backlash—right on cue

Pro-Israel apologists around the world are not counted in the hundreds but in the tens of thousands if not millions, that besides the almost total control they exercise over Western media, both directly and indirectly and the enormous pressure they wield through the complicity of the US and much of western political class, which treats Israel as a key member of the global imperialist project.

Israel & the Palestinian Conflict - Charlotte Korchak reacts to 'Last Week T. with John Oliver' (P2)

(The implication here is that this highly "educated" person will impartially tease out the truth about Israel's criminal policies, and that Oliver, for all his fire and brimstone is basically an ignoramus. "Credentialism" is a strong point with the affluent upper middle class that supports the Biden admin and global liberal imperialism.)

### Inside the Battle for Jerusalem

Good images and production value, as usual, and a decent rather balanced presentation, **but beware of Vice News**, well known for being a sneaky imperialist shill, like much of mainstream media.

Israel's bombing of Gaza has killed 213 people and Hamas rockets into Israel have killed 13. The latest violence between Israel and Palestine came after weeks of police aggression towards Palestinians in East Jerusalem. We embed with protesters in Sheikh Jarrah who face losing their homes as they wait to hear their fate in a case that's gone all the way to the Supreme Court.

AND THIS:

**Historical digest on the Palestinian/Israeli conflict sure to leave both sides thoroughly pissed.** In any case "both-sideism" does not apply to the Palestinian/Israeli conflict, as the criminality of Zionist policy cannot be honestly "balanced" by the supposedly "terrorist" deeds of the Arab side.

---

This was first published in 2015.

One thing is for sure, a lot of Arabs have betrayed the Palestinian people, too, starting with Egypt, which remains a satrapy of the West in any case.

Since the overpaid corporate media whores will never risk their careers to report the truth, the world must rely on citizen journalists to provide the facts that explain reality. After systematically corrupting the entire media, thereby hijacking the mainstream narrative, corporate power, led by the US, has practically killed democracy wherever it managed to survive, including in the US itself, easily one of the most heavily propagandised nations in history. The consequences of this disgraceful situation can be seen everywhere, and that's why the fight for the truth has never been so vital. We stand on the edge of an ecological abyss precipitated by a cancerous industrial system devoid of any moral restraints. Furthermore, dripping hypocrisy, the West has unilaterally declared war on China, Russia and Iran, which threatens a nuclear confrontation, plus other nations like Venezuela or Cuba that also dare to resist the tyrannical diktats emanating from

Washington. It's clear that war, ceaseless propaganda, and the immiseration of labor is the chosen solution of the empire managers to the capitalist system's incurable crisis, a crisis rendered all the more intractable by the computer revolution which has only deepened capital's legendary "overproduction" contradiction.

---

In this ridiculously uneven struggle between people's voices like Caitlin Johnstone, Jonathan Cook, Jimmy Dore, Lee Camp, Glenn Greenwald, Abby Martin, Jeff Brown, Godfree Roberts, the Grayzone team, the folks at Consortium News, and others of equally impressive merit, and the capitalist system's Orwellian media machine, our role must always be to help distribute far and wide what these journalists produce—to act as "influence multipliers". There's power in numbers, power that the enemy cannot hope to match. This is the primal power that the masses possess and which the oligarchs fear. Put it to use by becoming an influence multiplier. Repost this material anywhere you can. Send it to your friends and kin. Discuss it with your workmates. Liberation from this infernal and mendacious system is in your hands.

### Up to You.

^3000US citizens have no real political representation.

We don't live in a democracy. And our freedom is disappearing fast.

I don't want to be ruled by hypocrites, whores, and war criminals.

What about you? Time to push back against the corporate oligarchy.

And its multitude of minions and lackeys.
