Russia is Fighting a War of Self-Preservation
March 1, 2022 (The New Atlas) – NATO has expanded up to Russia’s doorstep and since 2014 Ukraine has helped bring NATO even closer. Along with NATO, Ukraine’s US-backed client regime has dropped 1000’s of dead ethnic-Russians on Russia’s doorstep as well.

While always wrapped in devious self-serving
rhetoric, US/NATO intentions toward Russia have always been crystal clear: an enemy state to be destroyed. They even proclaim it in their official "National Security" documents.

NATO’s ultimate goal is not only encircling and containing Russia but eventually absorbing it. Russia is not waging a war of aggression but one of self-preservation against an existential threat that has previously targeted and destroyed entire nations from Afghanistan to Libya to Yugoslavia.

Up to You.
^3000 US citizens have no real political representation.

We don't live in a democracy. And our freedom is disappearing fast.

I don't want to be ruled by hypocrites, whores, and war criminals.

What about you? Time to push back against the corporate
oligarchy.

And its multitude of minions and lackeys.
