Two weeks have changed the course of world history. There's been over \$100 billion worth of damage and counting - in Ukraine alone. Around the world, there's been mayhem in the stock markets as energy and global supply chains are disrupted. A new global system is emerging, with geopolitical realignments that will have repercussions for decades to come.

Meanwhile, the world watches as the existing alliances begin to shift. Turkey's Erdogan, treacherous, as usual, publicly castigates Moscow for "its invasion", conveniently forgetting the years its has been a naked accomplice in the destruction of Syria and other nations in the Middle East.

^3000US citizens have no real political representation.

We don't live in a democracy. And our freedom is disappearing fast.

I don't want to be ruled by hypocrites, whores, and war criminals.

What about you? Time to push back against the corporate oligarchy.

And its multitude of minions and lackeys.
