Tucker: "Elon Musk is putting everything on the line"

April 14, 2022

Few things underscore the complete erasure of clean and rational political life in the US than the hugely ironic fact that this supposedly proud nation, by self-designation the "exemplar" of global democracy, must now rely on an erratic billionaire to rescue its highly endangered (if not virtually dead) First Amendment. And the danger-mind you-is not so much

coming from native fascists as from simply deranged centrists—Democrats—the party of US liberalism that likes to think of itself as the repository of everything that's decent and essential in life: freedom, compassion, egalitarianism, and the rest of the Marvel Comics fantasy values. It's therefore elementary prudence that, before we get really excited about this new white night, we remember that Musk is the same guy who very recently had no trouble proposing the outright theft of Bolivia's Lithium via a dirty coup d'etat. In that regard—hate to tell you—he certainly sounds like simply more of the same. Keep your expectations low.

^3000US citizens have no real political representation.

We don't live in a democracy. And our freedom is disappearing fast.

I don't want to be ruled by hypocrites, whores, and war criminals.

What about you? Time to push back against the corporate oligarchy.

And its multitude of minions and lackeys.
