Pasta and Fiorella engage in a wide-ranging discussion with Kharkov resident Gonzalo Lira about the current situation in Ukraine and the prospects for the near future, as the war seems to be progressing to a conclusion with a victory for Russian arms. Gonzalo states his views about the moral and sociopolitical implosion of the West, and his belief that the multilateral axis headed by Russia, Iran, and China may eventually conquer "the West" (AKA "the US Empire"), still being led to disaster by the warmongering sectors of the American ruling class.

The views expressed herein are solely those of the author and may or may not reflect those of The Greanville Post. However, we do think they are important enough to be transmitted to a wider audience.

^3000US citizens have no real political representation.

We don't live in a democracy. And our freedom is disappearing fast.

I don't want to be ruled by hypocrites, whores, and war criminals.

What about you? Time to push back against the corporate oligarchy.

And its multitude of minions and lackeys.
