The Grayzone senior editor Max Blumenthal and geopolitical analyst Mark Sleboda discuss the rapidly expanding scope of the Ukraine war, as the US / NATO alliance persists in trying to give Russia its own Vietnam. Will this reckless adventure eventually escalate to a nuclear war? Considering the degree of control the Western disinformation machine has over the Western public, and these countries lack of effective democracy, it's obvious the West's ruling elites have, for the moment, no political restraints at home and anything is possible.

^3000US citizens have no real political representation.

We don't live in a democracy. And our freedom is disappearing fast.

I don't want to be ruled by hypocrites, whores, and war criminals.

What about you? Time to push back against the corporate oligarchy.

And its multitude of minions and lackeys.
