

Elon Musk In Bed With War Machine & CIA

Elon Musk is rare among the mega-rich in that he has multitudes of superfans who love every move he makes. And the Musk aficionados provided the loudest cheers when the Tesla CEO reported he would be purchasing Twitter, and possibly bringing back the principle of free speech to social media. But those cheers were no doubt misguided as Musk is unquestionably a tool of the establishment and not that rare sort of billionaire looking to upend the existing system controlled by Wall Street, military contractors, Big Pharma and other powerful interests.
